Many people were at the depot last night to witness the delegations as they passed through the city en route to St. Louis. But one train passed through that satiated the desires of the crowd. This was a Pennsylvania special which contained 123 men, all except a few being delegates or alternates. The train was made up of six Pullmans, a dining car and a baggage car. It reached the station at 10:40. Its presence was made known by vociferous cheering from the cars and shouts for Senator Quay. These shouts were misundestood by the crowds which supposed that the Sen-

"The push" of silverites has distributed all over the city a circular calling on the Democrats to see that silver wins at the primaries Tuesday night. It is headed with these choice words in large letters: "Free Coinage of Silver." "The Burning Issue of the Hour!" "What Shall Our Money Be?" The circular then continues:

"As American freemen, who love our democratic form of government as founded by Washington and Jefferson, we appeal to you as patriots to give need to the cries of distress which come up to us from all parts of our fair land, and to turn a deaf ear to the song of the English siren who would lull us into continued repose and transform us into slaves of the accursed British money power forever "Do you favor American money for Americans? Do you think more of home and fireside than of Britain? Don't you love your wife and little ones at home more than the money lender in Lombard street or Wall street? Then when you read this resolve to act at once. The time to decide this question is at hand. The farmer, the laborer and the business man, everybody needs more money, good, old-fashioned American money, to revive trade and make business hum. sessor Drew Too Much Money.

It is probable that the County Commissioners will be called upon to examine the accounts of James Watson, who made the assessment for Lawrence township in 1895. The cost of assessment that year was considerably greater than usual, and more than twice as much as it was this year under A. J. Newkirk. There was much complaint at the time that Watson's bills were too high, but not until some of his deputies but after his name was withdrawn they recently called the attention of Justice of the Peace Coombs to the matter was an investigation proposed. In 1895 it cost \$859 to make the assessment. This year Newkirk's The train was decorated with portraits | bills amounted to but \$420. At the same time the following bills were allowed for real estate appraisements: James Watson, fifty days, at \$2, \$100; George Dunn, thirty days, at \$2, \$60; S. T. Beaver,

forty days, at \$2, \$80. This shows that Watson drew pay for one hundred days, and that one deputy was paid for ninety days, or at least that ninety days' pay was allowed him. Deputies claim, however, that sometimes when they received but a few days' pay from Watson the records show that he put in bills for a full month's work and collected the money for himself. The friends of Watson claim that he will be able to satisfactorily explain all of these charges and the appearances of irregularities. Newkirk's t'lls also show that he and two deputies received pay for more than sixty days.

C. W. Counsellor, a boy nineteen years old, who has been engaged as clerk in the Model clothing store, was arrested last evening for petty larceny. He has been employed in the store but a few weeks and recently Manager Hays had reason to suspect that he was purloining small articles and also that he was taking money from customers and not sending it in to the cashier. During the Saturday night rush last night Mr. Hays gave another clerk a marked quarter and the clerk pretended that he was in a hurry and asked Counsellor to send the money to the cashier with the bill for some article which the clerk said he sold. The marked piece never reached the cashier's desk, but was afterwards found in Counsellor's pocket.
